Club meets the **second Sunday** each month, 2pm at the Waseca Municipal Airport.

January 2014

UPCOMING EVENTS:

Jan 12 Lite Flyers meeting, Waseca Airport, MN 2-4pm

December meeting notes:

Due to heavy snow in the area, the December meeting was cancelled.

Other club news:

I heard from Del, that he received a 100 hp Rotax 912 for his CH750.

Dennis is working on his new fiberglass gear legs for his Kolb, and is hoping to have them for show and tell at the meeting. As you all know, it's been cold, and windy around here. We have too much snow for wheels, but not enough snow for skis, so the Weedhopper is still sitting in the garage. Haven't switched from wheels to skis yet.

Last day on the job for Dennis:

The International Fund for Animal Welfare made a drop in Fairmont this morning, several puppies were rescued from a northern Minnesota location, then driven to Sioux Fall S.D. then driven again by a second volunteer to Fairmont where a volunteer pilot and his Turbo Beech Barron plane from central Wisconsin flew over to Fairmont Mn. then on to yet another State.

The pilot donated his time & gas to fly the rescued puppies to their adopted new homes in the State of Maryland. Now how's that for a heart warming story on this cold wintry day !
